

CASE STUDY

Awaken Bakery

Turnkey service streamlines delivery

Awaken Bakery wanted to upgrade from labels on stock pouches to colorful, retail-caliber packaging. Custom-printed stand-up pouches were the ideal solution but Awaken Bakery was unsure where to begin. They needed help to turn their ideas into print-ready artwork that could be ordered and produced.

The Pouch House offered the turnkey experience Awaken Bakery craved. Our design team worked with the customer to provide creative direction, pouch layout guidance and file preparation services — delivering the finished pouches in less than seven business days.

“I can honestly say I haven’t experienced this level of **customer service** with another company.”
